

101 Alustar

Rim cleaner, acidic

- ▲ Maximum cleaning performance when faced with brake abrasion, rust film and road dirt
- ▲ Even removes obstinate brake abrasion and cement, limescale and rust deposits
- ▲ Outstanding at dissolving statically adhesive dirt
- ▲ Also effective at low temperatures
- ▲ Designed to be low-foaming, thus does not create excessive foam in the basin system during high washing volumes
- ▲ Pleasant, subtle perfume
- ▲ Very economical thanks to maximised product concentration
- ▲ Free from sulphuric acid and hydrofluoric acid, as well as compounds generating hydrofluoric acid (e.g. ammonium bifluoride)
- ▲ Free from EDTA, NTA and phosphates

Application

Only use on hydrochloric acid resistant materials. Prior to use, see instructions provided by the material and surface manufacturer and check for material compatibility where required. Do not applicate on hot surfaces.

Product is suitable for pre-dilution

Apply either undiluted or prediluted to the application with a suitable dosing device. The shelf life of diluted solutions is reduced by the storage conditions and water quality. Only approved for proper use by trained personnel.

Rim cleaner:

In low-pressure systems as a spray application (rim \geq 1:10).

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. Apply extensively to saturate the surface. Do not allow the cleaning solution to dry. No liability is accepted in case of incorrect and unprofessional use! Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

Ingredients (according to 648/2004/EC)

Nonionic surfactants 5–15%, inorganic acids, additives, corrosion protection, dyes, fragrances (Amylcinnamal).
pH value (concentrate): < 0.5

Classification

Classification (in concentrate): GHS05, Danger. H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Phosphoric Acid / Hydrochloric Acid (INCI)
