

231 Micron AS Polish

Wax care polish for automatic car wash (Air-Spray)

- ▲ Preserves and maintains all vehicle surfaces intensively
- ▲ Long-lasting protection against weather and environmental influences and an impressive surface gloss finish
- ▲ Impregnating effect ensuring excellent water and dirt repellency
- ▲ Easy to polish and therefore uniform paint sealing
- ▲ Significant improvement to the drying
- ▲ No layer build-up and no smearing
- ▲ Ideal for convertible soft top canvas
- ▲ Contains natural carnauba wax
- ▲ Provides a pleasant and intensive fragrance experience
- ▲ Free of hydrocarbons and mineral oils

Application

Shake well before loading the rollover.

Product is not suitable for pre-dilution

Apply undiluted to the application with a suitable dosing device.

Polishing:

as a spray application (60–150 ml/car).

After the vehicle is washed and blower dried, apply the product with the sprayer unit (AS=Airspray). Polishing without water in the subsequent brush step.

Note

Always keep containers closed and guide suction tubes through the closure. A change in colour and clouding may occur without any loss in quality due to the natural raw materials. Protect from frost. Not a consumer product according to 1999/44/EC Art. 1! For professional use only! Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product.
